SHAMIM HOSSAIN SAGOR
MERN STACK DEVELOPER

PROFILE

I am a full-stack web developer who loves building websites and web apps. I work with HTML, CSS/Tailwind, JavaScript, and React for the front-end, and Node.js, Express, Prisma, and PostgreSQL for the back-end. I enjoy learning new technologies and creating user-friendly applications. I am looking for a role where I can grow and make useful projects.

PROJECTS

Krishi Alo (PERN Stack)
Technologies: React, Tailwind CSS, Express.js, Prisma ORM, PostgreSQL

KrishiAlo is a PERN stack app with React, Tailwind, Express, Prisma, and PostgreSQL—featuring JWT auth and Stripe payments.

UnoSicurezza Website
Technologies: html, tailwind css

UnoSicurezza is a fully responsive front-end project built from a Figma design using HTML and Tailwind CSS. It includes interactive JavaScript features and a smooth, mobile-friendly slider powered by Swiper.js.
